CHAMPIONS, 8; KANSAS CITY, 5. Cross Pitched a Somewhat Better Game than Callahan.

The last Kansas City game was about as easy as the first, all things considered. It is true that the Blues rolled up a few runs in the ninth inning, but they fell so far short of enough to tie that even the fainest-hearted of all the "fans" did not grow uneasy. The game was remarkable for the number of outfield put-outs, nearly all of them hard chances. Cross pitched a somewhat better game than Callahan and his support was an improvement upon that given the latter. The Blues miss Manning at second and Nyce does not do the work Frank Connaughton did last season. The Indianapolis errors cost nothing and Kansas City had to earn all five runs. It took six innings for Manning's men to find Cross and then it was too late to catch

Neither side scored in the first, but in the second Stewart hit a little one near Callahan, who threw so wild that the runner reached second. Shiebeck advanced him to third on an out at first. Shannon struck out, but Menefee made a wild throw of Hogan's grounder and Stewart scored. Cross reached first on balls, Callahan's only gift during the game, but Nichol captured Hogriever's fly and the side retired. Nyce fumbled Buckley's grounder in the third and McCarthy bunted safe. Motz sacrificed them along and Stewart, after getting a life on hatfield's muff of his foul, sent a long fly to Campau, scoring Buckley. Shiebeck touled to Lake. It was in the sixth that the champions

began to touch Callahan up and when the half inning was over the game was practically beyond reach of the Blues. After Motz had gone out on a fly to Nichol. Stewart hit to right center for two bases. hiebeck, Shannon and Hogan followed with singles, batting in two runs. Cross went out at first, advancing the two baserunners, who scored a moment later on Hogriever's single to right. The latter tried to steal second, but was caught. PLAYED HARD IN THE NINTH.

In the last half the Blues showed some disposition to get in the game. After Nyce had fouled to Motz, who made a good running catch of it, Klusman hit to right for three bases and Nichol lined a single to left, scoring him. Campau and Menefee got singles and Nichol came in. Menefee was caught stealing second and McVicker gave McCarthy a long fly. With one out in the ninth, Cross hit for a base and made the circuit on singles by Hogriever and Buckley. Nichol's bad throw-in of Buckley's safe hit allowed Hogriever to score. McCarthy and Motz were retired at first. In their half Manning's men showed a disposition to "hit 'er out," but the streak was short-lived and could not reach. Menefee hit to right center for two bases, Mcicker followed with a single to left and Callahan with a triple to the left center fence. Hatfield's out from Stewart to Motz scored Callahan with the fifth and last Kansas City run. Stewart fumbled Lake's grounder, but Nyce and Klusman flew to Hogan and it was all over. The attendance yesterday was 1,200. Score:

St. Paul This Afternoon.

The champions will try during the next three days to even matters up with St. Paul. Three straight from Comiskey's men would delight the "rooters" immensely, and Manager Watkins is going to try hard to land the entire series. Damon will pitch the opening St. Paul game this afternoon and Denzer will go in against the champions. Jack Glasscock will be seen at first for the Saints, and he has a few friends

here who still regard him with some affec-

tion. These next three games will either

open a big gap between Indianapolis and St. Paul or will pull them a little closer together. This fact makes these games all the more interesting. Connor's Error Lost for Millers. Republican Handbook.

Washington Special. The Republican campaign handbook under preparation by the national congressional committee will not be ready for distribution for about thirty days. It will be printed in Philadelphia. The copy is ready, out as infinite care must be exercised in proof reading and revision it cannot be put through as a "rush job." Inquiries for statistical information bearing on national finances and departmental work have been so numerous at the Treasury Department as to interfere with the routine business of the heads of bureaus. To relieve the situation and supply the information sought Chief Huntington, of the bond and warrant division, is getting out a special pamphlet covering the points toward which attention is largely directed. It will be a useful and valuable compilation, and will be brought down to date, anticipating in a measure the reports for the fiscal year ending with June 30 last.

Nobody Wants Sewall.

Philadelphia Inquirer. Nobody wants Sewall. The Chicago convention took him only for the reason that it could get no better candidate. What nonsense it was to take the President of a National bank as the candidate of a party that denounced the banking system of the country. On that point the Populists were more consistent than the Democrats. They would not take Sewall upon any terms. Not even Mr. Bryan's demand that Sewall should be named could swerve them from their purpose to repudiate him. Poor Sewall. The platform of the Democrats in his own State repudiates him. And now come the Populists to declare amid wild applause that he is not fit for second place on any ticket.

As to Crosses.

New Haven Journal. Brother Bryan has said several times that it will not do to crucify the people of this country on a cross of gold or press down a crown of golden thorns on the brow of labor. We should think not. It would be an unusual and barbarous proceeding, against the law and against common humanity. But how about crucifying the people on a cross of silver? Will crucifixion on a cross of silver hurt less than crucifixion on a cross of gold or be any less unusual and barbarous? We trow not.

LOST ON THE DESERT.

Perish in the Colorado Sand.

Edward Clark and Harry Sanford

POMONA. Cal., July 27.-Edward M. Clark and Harry Sanford, who started to drive across the Colorado desert from Banning, Cal., to Yuma, Ariz., six weeks ago, have undoubtedly been lost on the desert. They went on a mining and prospecting tour along the Colorado river and were 'grub staked" by James Coyle, the Pomona Hotel proprietor. Coyle heard from Clark from Banning and eight days later from Volcano Springs. From this place Clark wrote their suffering on the desert had been fearful. They were almost out of provisions, but pushed on to Yuma, eighty miles distant. They had encountered fear-

ful heat and desert storms. Coyle has heard nothing since. Last night a prospector named Higgins sent word that he found two bodies answering the description of Clark and Sanford on the desert twenty-five miles from Volcano Springs. The bodies were decomposed, but the clothing was identified, and wo miles distant a dead horse was found with a wagon answering the description of heir vehicle. No one doubts that the bodies are those of Clark and Sanford. Clark was a nephew of ex-Governor and was a cousin of State Treasurer Colof Glens Falls, N. Y. He came to California two years ago with an invalid wife. He was unfortunate in mining speculations. Sanford has a wife and four children living at Columbus, Mo.

ORMESTOWN, Quebec, July 27 .- With the taking of the testimony of Mary Ann Edford in this village, the work of the open committee appointed by Judge Beach, of the Supreme Court, in New York city, in the case of Sarah Ann Angell against the heirs of Jay Gould, is about completed. There were four witnesses for the committee to examine. Two live in Tunkhannock. R. H. E. | Pa. One is the Rev. Nathaniel Leighton, dale tin-plate works and includes a number who is allged to have married Jay Gould, or Jason Gould, and Sarah Ann Brown, April 16, 1853. The other is that clergyman's daughter Mary. The commissioners, District Attorney Drake and Henry Harding, went down to Tunkhannock and examined these two on June 30. The Rev. Leighton could not remember anything about the marriage. The commission and the lawyers came to this village and ex-

I went to Plattsburg. N. and went to work for Mr. Leighton, th minister. Could not remember his name, but thought it commenced 'Ax' or something like that. One morning in April, 1853, between the hours of 9 and 10 I answered the door in response to a knock and let in a young couple. The man smiled, saying they wanted to get married. I called the minister and returned to my work. Mrs. Leighton asked me to go in and see the couple married. I objected, but finally consented to do so. "Mrs. Leighton and her two children also witnessed the marriage. Heard the girl say in answer to marriage question.

'yes' and the man 'I will.' The minister gave the bride her marriage certificate and told her to take care of it. The minister asked the marriage couple their names, the girl answered Sarah Brown and the man said Jay Gould. Did not know young woman at that time and had never seen man before in my life. Remembered man's looks better than the lady's. "The young man had high forehead, was hollow over bridge of nose, his hair was Myron H. Clark, of Canandaigua, N. Y., parted very nice. IMPROMPTU POLITICAL MEETING ADDRESSED BY JOHN LINCK. Executive Boards of Central States in

> Scottsburg Sends Names of Prominent Democrats Who Will Support Mr. McKinley.

ROME CITY, Ind., July 27 .- The Hon.

John W. Linck and party of friends from

Special to the Indianapolis Journal.

Jefferson county have been rusticating among the lakes of Lagrange county for the past week. Some of the citizens, learning of Mr. Linck's presence, and knowing that he had given the currency question careful study, invited him to give them some information on the subject. Mr. Linck spoke to a large and enthusiastic audience for nearly two hours, showing the many fallacies of free-silver theories, false statements and erroneous deductions, explaining what money is and what it has been, proving that gold and silver were not the only money, that many other articles had been used as legal tender, such as coon skins, cod fish, tobacco, cattle, wampum and cowry shells, and that the Chinese had used leather money, making it a death penalty to refuse to accept it. He called attention to the fact that while we are entering upon one of the most momentous periods since the civil war the Democratic party had put in nomination a man for the highest office-not a man of age, experience and wisdom, but a young and enthuslastic man who had never shown any ability or capacity as a statesman. Mr. Linck admitted that he was an orator, and because of his flowery language and splendid rhetoric, had been employed by the silver kings to deliver lectures to the people throughout the country; that he had been a failure as a lawyer, had been a tolerably successful newspaper correspondent and editor, and had served two terms in Congress, during which time he made two very radical speeches in favor of Populism and free silver. Because the Democrats would not take up with his ideas he renounced his not get further than second, Harpsichord allegiance to the party and became a blatant Populist. Mr. Linck also reviewed the laws on the money question from the time Swain was the favorite for the fifth race, present, showing that the Constitution did Takanassee second choice. Takanassee was | ernment; that the States alone were prohibited from making anything but gold his lead to the end, won by a short head | and silver a legal tender; that the first from Meadow Thorp, who was back in the laws establishing the United States mint mentioned gold before it did silver in fixing the value of the unit; that for convenience the silver unit was fixed at the size odds of 10 to 1, won the last race. Sloane of the Spanish milled dollar then in circuclaimed a foul against McCafferty on Ken- lation in the United States. That later, as these Spanish milled dollars became worn, the new coinage from the United States mint, being heavier, went out of circulation and in 1804 President Jefferson ordered the further coinage of silver dollars stopped that in 1834 gold had become more valuable than silver, and, under what is known as the Gresham law, had gone out of circulation, and, to keep gold money in circula-tion the ratio of 15 to 1 had to be changed to 16 to 1. Later experience proved that this ratio was too high, and silver became more valuable than gold; that in 1854 the coinage of silver dollars was stopped and the subsidiary coin was made lighter to prevent silver coins from being exported and being used by manufacturers, silver dol-lars having all gone abroad. From that time down to the commencement of the war a silver dollar was seldom seen, and at that time necessity compelled us to go upon a paper basis. He showed that the cause of the fall in the price of silver was ance, 3 to 1; Joe Clark, 4 to 1; Turtle | because of the enormous increase of its production, jumping from \$150,000 in 1860 to \$2,000,000 in 1893. That, according to Senator Jones, of Nevada, in a speech in the United States Senate in 1876, we had been on a gold basis since 1834, when the ratio was changed from 15 to 1 to 16 to 1. Mr. Linck argued that the standard made no difference as far as business was concerned; that a yard stick being three or four feet longer would not effect the trade in calico or silk ribbon; all that was re quired was to have a fixed and definite standard of measurement. Mr. Linck showed that the free coinage of silver would not increase the amount of money in circulation, but rather diminish it from half to two-thirds by causing gold to cease circulating to the amount of \$600,000,000, and depreciating paper and silver money to nearly one-half of its present value. Mr.

M. Linck closed with an appeal to the peo-ple to uphold the honor of the flag and their country.

Bryan admitted in his speech in Iowa

pudiation, at least of all then existing public and private debts; that it would bring

disgrace and dishonor upon us as a nation

laws and the re-establishment of confidence.

A Notable Accession. Special to the Indianapolis Journal, MIDDLETOWN, Ind., July 27 .- A large and enthusiastic Republican club, to be known as the McKinley Club of Fall Creek Township, was organized here Saturday President, Frank J. Grath; first vice president. W. L. McCampbell; second vice president. George Williams; secretary. J. A. Young: treasurer. Thomas Tarkleson; ex-ecutive committee, J. O. Lambert, George and David Howells. The membership is made up largely of employes of the Ironand four years ago for the Democratic enthusiastic speech in behalf of sound money and protection to American labor, Mr. Jackson is a forceful speaker, and will take the stump this year in the interest of the Republican ticket. The Republicans are all in line here for McKinley and the principles of the party as enunciated at the St. Louis convention. Several Democrats have repudiated the Chicago platform and ticket and will cast their votes in November for McKinley, protection and sound

money. Quarreling Prohibitionists. Special to the Indianapolis Journal. ANDERSON, Ind., July 27.- The Prohibition party in Madison county was hopelessly split and at a conference to-day in this city it was decided that each faction representing the broad and narrow gauge elements should organize for themselves and hereafter work independently of each other. There were resignations from almost all of the members of the county central committee. The narrow gaugers are in a minority, but they have the best speakers and almost all of the ministers who have in any way become identified with the party. A sensation was created by the announcement of Rev. U. H. McGuire, pastor of the Baptist Church in this city, and who has been a life-long member of the party, who said that after mature deliberation he believed the party was now noneffective and could not accomplish its mission and that hereafter he would not be considered as a working member of it. The session was quite stormy at times. Elder M. W. Harkins and Rev. S. N. Wilson made very earnest speeches in favor of the position taken by the one-plank section of the party.

More Democrats for McKinley. Special to the Inlianapolis Journal.

SCOTTSBURG, Ind., July 27 .- Saturday night a McKinley club was organized at Holman, this county, with thirty-five members. Holman is situated at one edge of a precinct, which cast only sixty-one votes for the head of the Republican ticket two years ago, and the organization of a club with more than half the Republican voters of the precinct shows that they are alive to their interests. After the club had been organized Mr. James S. Rutherford, an attorney of this place, and a recent convert the financial issue which had a telling ef-Rutherford was one of the Democratic speakers who stumped this county, but seeing where his party was drifting he quietly withdrew from it last spring and joined the Republican party. At the close of his speech Mr. Elisha Robbins, who has always voted the Democratic ticket, announced in a few remarks that he was for McKinley sound money, protection and prosperity.

Ralph and others. IMMENSE CORN CROP.

Rains, Although Retarding Farm Work, Did Good. The weekly crop bulletin for the central station at Indianapolis is as follows: "Rain fell on several days and very heavy rains in many localities did much damage and retarded farm work. Wheat, | night, 9 o'clock. rye and oats are rotting and sprouting in shock and hay is rotting. Much hay is not cut yet, although ready for cutting; much timothy is not yet cut. Wheat, rye and oats threshing advanced but slowly; so also plowing for wheat, because of wet weather, Tobacco is in good condition; most is topped; it promises to be a large crop, but in localities rain damaged it in the low fields. The rains were good for growing est men know that it would be partial recrops; an immense crop of corn is almost assured; some corn fields in low lands and river bottoms are under water. There will be a large crop of potatoes, but because of so much rain some are rotting in the hill. Vegetables are growing finely: tomatoes are in best condition and the crop is very large; sugar beets and melons are im proved by the rains. Peaches, plums and

Ex-Policeman Sauers Had Been Fol-

lowing Her About. Andy Sauers, an ex-policeman, appeared before Justice Clark yesterday morning and swore out a warrant for the arrest of Mattie Johnson for assault and battery. The evidence at the trial yesterday afternoon showed that Sauers had been following the woman around, and, becoming tired of it, she went into a shop on South Illinois street. When she came out she carried in her hand a buggy whip, and marching up to Sauers proceeded to give him a whipping. Justice Clark fined her 1 cent and

Slept with His Foot on the Track. Peter McGovern, aged twenty-six, a barber, of Toledo, had a foot crushed by Vandalia switch engine yesterday afternoon, which made amoutation necessary. McGovern went to sleep near the roundhouse in the shade of a car. His foot got across the track and the switch engine coming to move the car, pushed it upon him. He was taken to the City Hospital.
